Attachments: [Tox Review 67517-88 to Caution 8-17-2010.pdf](#)

Dan,

Based on our conversation Thursday, attached please find the TRB review that was prepared when we amended 67517-88 and 67517-89. Since all these bromethalin baits were batched together for acute toxicity purposes in the RED, TRB agreed with our request to restore the Category III determination. The study MRID number you need that TRB based this decision on is found this review.

Let me know if I can help you in any other way.

Best,

jimsig

which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you

should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at (866) 411-4EPA (4372). The TDD number is (866) 489-4900.
